

GRAVURE CYLINDER CLEANER

Easy, Fast Cleaning Using Ultrasonic

SC-G100E

Feature

Stable cleaning performance

- Direct ultrasonic transmission contributes to through cylinder cleaning with small amount of solvent.

Economical and Compact

- Only 18 liters cleaning solution
- Low power AC100V 850VA.

Easy to customize

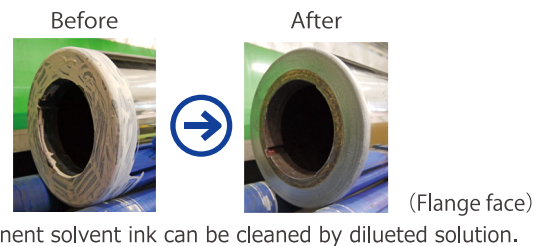

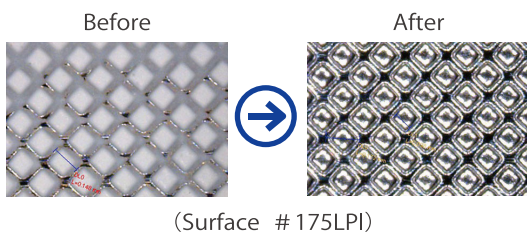

- Flexible spec change to your needs.
- Compatible to Anirox.

Clear

- Suppressed solvent odor in the workplace.

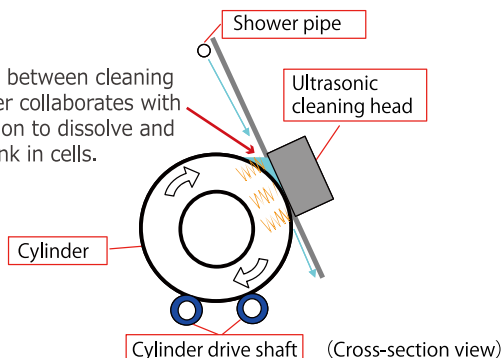

Cleaning Ability

Perfect cleaning cell and flange of the cylinder.

Cleaning Mechanism

Provided solvent between cleaning head and cylinder collaborates with ultrasonic vibration to dissolve and detach sticking ink in cells.

Specification

Product No.	SC-G100E
Outside dimension	W2,769×D970×H1,375mm
Weight	450kg (Dry weight)
Power consumption(VA)	AC 120, 220, 240V 50/60Hz 850VA
Ultrasonic	40 k Hz 600W
Air	0.5MPa 770NL/min
Cylinder size	Total length 700~1,350mm Circumference 345~942mm
Drive system	Air pump / Air motor
Exhaust duct	5m/sec

Specifications are subjected to change without notice. 2018.6
