

### Simple and Easy !!

#### Simple to use

- Convenient touch panel display
- Comfortable one-button operation
- Automatic process from cleaning to drying

#### Economical

- Low operating costs
- Low electrical consumption
- Low maintenance

Stencil set image (736×736mm)

#### Compact type

- Perfect solution for dead-space of your factory

#### Stencil size

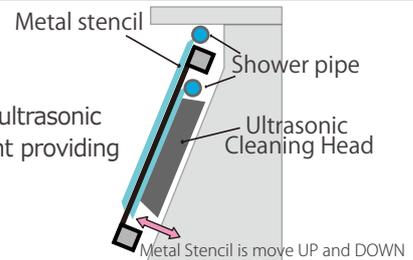

550×600\*  
550×650\*  
736×736  
(mm)

\* Adapter required.

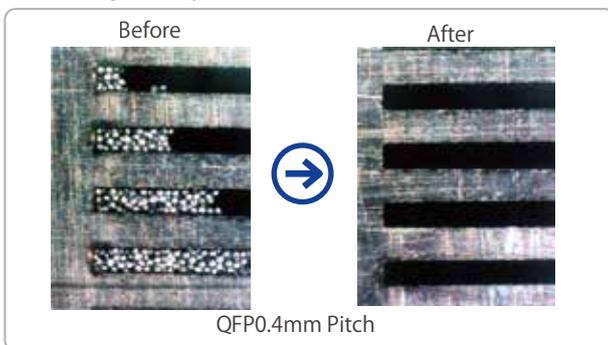

#### Cleaning Mechanism

##### Direct Ultrasonic Transmission

A powerful cleaning head applies ultrasonic vibration to the stencil with solvent providing excellent cleaning capability.

#### Cleaning Ability

#### Specifications

Product No.	SC-ML736E
Outside dimension	W 1,290 D 553 H 1,466 mm (Including projecting parts.)
Weight	135 kg (dry weight)
Power	AC 110, 120, 220, 240V 50/60Hz
Power consumption(VA)	350VA
Ultrasonic	40kHz 150W
Air	0.4MPa 800NL/min
Exhaust duct	5m/sec
Cleaning time	Minimum Approx. 3min.
Drying time	Minimum Approx. 5min.
FCC compliant model is available. Please ask for details.
